Is property located within a historic district? ☐ No ☐ Yes Name of District: \_\_\_\_\_

Is district listed? ☐ No ☐ Yes

Documentation on the property/district is presented in: I-495/I-95 Capital Beltway Corridor Transportation Study Historic Resources Survey and Documentation of Eligibility Report

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

This property has not been previously surveyed. The 6408 Princess Garden Parkway House is currently a 1-story, banked front-gable structure with a long side-gable wing, set on a concrete foundation. The roof is a low pitch; there is one exterior gable-end brick chimney. Fenestration includes modern sliding vinyl windows and single and paired 1/1 vinyl. The exterior is clad with horizontal vinyl/metal siding. There is a single outbuilding on the property, a gable-roof, sheet metal garage. Architectural features suggest that an older, smaller dwelling, perhaps 1930s or so, may be at the core of what is now a substantially larger residence with elements that date to the ca. 1950s.

This vernacular dwelling is not eligible for the National Register of Historic Places. It has been significantly altered so as to obscure its original form, which could date to earlier decades of the 20<sup>th</sup> century. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state, or local history. Historic research indicates the property has no association with persons who have made significant contributions to history, therefore it does not meet Criterion B. It is not eligible under Criterion C, as its architectural integrity is very poor and there are no character-defining features. Investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore National Register Criterion D cannot be assessed at this time.

Prepared by: Sara Amy Leach, KCI Technologies, Inc., January 2000
